Bob White		\$ 6.90	
Coturnix		\$ 7.90	
Chukar Partridge ( min. 50 ) Straight run only.		\$ 6.25	

Chick reminders;

When taking your chicks home, give them access to warm (room temperature) drinking water as soon as possible.

Gently dip their beaks in the water so they know what it is and where to find it. Continue the warm water for their first week.

Chicks need a brooding temperature of 90 - 95 degrees for the first week. Lower the temperature by 5 degrees per week until you reach 70 degrees. Keep out of drafts. Don't let them get cold feet from inadequate bedding,

add a layer or two of cardboard. Have your lights on and water in place and ready to go when you get home with the chicks.
